

If you can draw it, we can fabricate it. That's the guiding principle of Lindsay's Custom Sheet Metal group. Our new sheet metal fabricating facility gives us the flexibility to produce customized sheet metal solutions according to your budget and construction needs. Our certified tradespeople have the qualifications and experience to produce specialty sheetmetal products as well as a complete catalogue of standardized products such as:

- thru-wall flashing
- interior/exterior exhaust hoods
- flashing for roofing
- flashing for cladding
- flashing for glazing
- back pans for glazing
- fixed and mechanically linked louvres
- counter tops
- drip pans
- gutters
