

Lindsay has enjoyed a long history as a successful general contractor, thanks to our skilled team of estimators, project managers and site superintendents who take pride in completing any size project on budget and on time.

Lindsay's wide range of expertise extends into areas such as design-build, roofing, and service work, giving us a special advantage in seeing any job from many perspectives which can provide extra value to each general contracting job. We also offer the added advantage of one-stop service for custom designed items from our Shop specialties – Welding, Millwork and Sheet Metal.

“We have a variety of different construction needs varying from tenant improvements in existing buildings to the construction of new buildings and modernization of older structures. Lindsay has provided us with competitive pricing and the quality workmanship that we demand on behalf of our clients.”

– Dan Brown Operations Manager, 20 Vic Properties

Our expert team will meet with you to determine the scope of your special project, then assign the right team of experienced tradespeople to the job.
