

**“It is refreshing to be acquainted professionally with people and an organization that have a unique insight and wisdom in solving highly technical construction issues and performing them with the highest level of quality. Quality and speed were achieved by this outstanding crew of roofing technicians with little notice by guests of the hotel.”**

– Michael L. Cogburn AIA, CSI Arnold & Associates  
comments on Casino Nova Scotia Hotel roof replacement

The crowning achievement of any construction project is its roof. Roofing systems must be durable enough to withstand the toughest weather Mother Nature has in her arsenal, yet diverse enough to meet all types of individual building requirements.

Lindsay is widely recognized as being one of the industry's best commercial and industrial roofing contractors. We have an in-depth knowledge of all roofing materials available, having installed thousands of roofs with speed, expertise and a commitment to quality.

BURNSIDE INDUSTRIAL PARK; DARTMOUTH, NOVA SCOTIA

Since 1982, Lindsay has been applying commercial and industrial roof systems including EPDM, PVC, TPO, and Metal. Lindsay specializes in using the Carlisle Fast 100 Fleeceback re-roofing system to replace ageing metal roofs.

Lindsay is highly regarded by premier roofing system manufacturers—such as Carlisle and Sarnafil—for our commitment to quality, workmanship, and training. Lindsay's roofing team has received international professional recognition for their expert workmanship. In 1995 Lindsay was the first Canadian contractor to be inducted into the Carlisle Hall of Fame.
